

We are most grateful to the Lecturer for their hard work and the use of their special talents and skill. We are proud of Purity for her talents and the use of both English and Kiambu. She reminds us that behind every language there is a philosophy.

We cherish the spiritual gifts of Bishop John Njeru particularly the gift of healing and allowing us to use JESUS HEALING FELLOWSHIP. I have seen John using this gift by identifying the problem of one of our teachers and administering the healing. Interesting, recently, we had problems with our email and after reporting the problem to Bishop John, he administered the healing and our problem was gone. Drawing from the bishop, the Embu campus discovered Sanitizer which is helping the community fight Covid 19.

The other unique endeavor is bee keeping business which involved students and the member of the community. This brings economic advancement to both the students and the community. We greatly appreciate you for this project.

We are therefore encouraging you praise God for your humble beginning. Remember that Jesus who is the Lord of all and through who all things were made, was born in a manger and he never own any property. And so do not let anyone despise you. You are indeed doing a great job and I am grateful. I strongly advise you to move in God speed. Remember the mission statement of All Nations Christian Church International is: Empowered by the Holy Spirit, we preach the Gospel to all nations. I therefore advise you to let the Holy Spirit fill every fiber of your being.

May God richly bless you.

Prof John G Githiga

Chancellor, ANCCI University
