### DESERT LIFE AND ALL NATIONS

*Praise the Lord, all your nations, loud him all you people, for his loving kindness to ward us is great and the faithfulness of the Lord endures forever. Halleluiah.  
Psalm 117*

One of the Saints who are most celebrated is St. Benedict of Nursia Who retrieved in the desert and prepare the rule of life which included, prayer and meditation, work and rest. We may not comprehend how the desert man is now remembers by many nations. Before Jesus began his public ministry, he spends 40 days in the wilderness. Today he is worshipped by all nations. When God is preparing us to be available for all nations, he allows us to go through purifying fire. When I was preparing for enthronement as the Archbishop of All Nations Anglican Church , I had financial problem. I young man who had bought my piece of land in Kenya, called me when I was at the airport and claimed that I have sold him a plot which didn't exist and so I must refund him immutably or "else see you in court. "It was painful because I am the one who facilitated the coming to USA for this young man and his two sisters by writing to the Embassy in Kenya and sending my bank statement to proof that I will support them. Long story short, the young man took me to court, won the case and I was ordered to pay him within three weeks. But miraculously, God provide the money before the deadline. In spite of painful experience, I was enthroned Archbishop, at Native American reservation, by two Bishops one was African American and the other was a Congolese and we were hosted by Anglo American family. We now rejoice for being parents of many nations. Our trials and tribulations help us to be compassionate and empathetic to those who are suffering.

This message is intended to encourage you when you are going through challenges, as you faithfully serve him who is a Great Provider and who loves us so much that he has to give his only son. who died for our sin and thus :

Praise him in the morning

Praise him in the noon time.

Praise him when the sun goes down.
